

AKNM Government Polytechnic College, Thirurangadi
Department of Computer Engineering
Fourth Semester Computer Engineering (2025-26)
Formative Assessment-1

Type of Assessment : Programming Practice

Course Name: Object Oriented Programming

Course Code: 4131

Max. Marks : 15

Submission guidelines:

- **Write all these programs and do in the next OOP Lab**
- **Save the programs in the folder “FA1-Rollno” for later verification**
- **Submit Assignment (Written or Printed) on or before 13-01-26 (Tuesday)**

CO	Description	Cog. Level
CO1	Apply object-oriented programming paradigms to develop simple JAVA applications.	III

Qn. No	Questions	Marks	CO	Level
1	Create a class ‘Employee’ to contain data – Employee Code, name and Basic Pay. Develop a Java program to use the above class to store details of ‘n’ employees and display the details of employees having basic pay greater than a given amount.	5	CO1	III
2	Create a class to contain student data – regno, name and mark and two overloaded methods:- printMark(int) : to display name and mark of a student using regno printMark(String): to display regno and mark of a student using name. Develop a Java program to use the above class to print details of a student.	5	CO1	III
3	Develop a Java program using method overloading to define methods for calculating powers depending on its arguments as mentioned below: • power(int x, int y) to find x^y • power (int x, int y, int z) to find $x*y^z$	5	CO1	III
